Phone : +44 (0) 1308 805032

Badger was born and raised in the UK however has generally travelled well. Over many years he ventured to The Netherlands, travelling by car and train. His longest trip was to Melbourne in Australia in 2013 and back to the UK in 2015. He travelled on A380 aircraft in both directions and although somewhat tired after the experience he recovered well.

His main aims in life are going on walks and eating. As a Labrador these are the two main objectives of his existence. At the same time he do loves a cuddle and being close to “hoomans” however strange they might be in his eyes at times.

Although not always around he does like to make a guest appearance and will, with a waggy tail, greet any visitor with one of his favourite toys in his mouth. He is sure to make anyone feel welcome when they visit.
